

To log in, follow this process:

## 1. Start

From the website, [www.hegartymaths.com](http://www.hegartymaths.com), click on "Student log in"

## 2. School

Find your school - start typing - your school should show in the list. You can also use the postcode of the school if that's easier.

**\*You can use B927ER - we are not the first Langley School to appear\***

The image shows a search interface for finding a school. It has a blue background with faint math icons. The main heading is 'Find your school' in light blue. Below it is a search input field with the placeholder text 'School|name'. To the right of the input field is a link that says 'What's this for?'. The entire search area is enclosed in a white rounded rectangle.

## 3. Details

Enter First name, Last name, and Date of birth. These must be the same as the details on the school register. Names are cAsE insEnsiTivE, so it doesn't matter if you write them in *lower case* or *UPPER case* or a *MiX*.

**\*But this will be however your name appears on the register\***

The screenshot shows a login form titled "Enter your details" for "Hegarty Academy". Below the title is the text "Logging into Hegarty Academy. Not your school?". The form contains several input fields: "First name", "Last name", a dropdown menu with "1" selected, a dropdown menu with "January" selected, and a dropdown menu with "2016" selected. Each dropdown menu has a "What's this for?" link to its right. At the bottom of the form is a blue button labeled "Next".

#### 4. Password

The first time you log in, the system asks you to choose a password which you will need to write twice. Create a memorable password so you do not forget it. Only a teacher can reset a student password, so choose carefully! (Maybe write it down inside the cover of your maths book?)

The screenshot shows a screen titled "Welcome Robert" with the instruction "Please set a password to login.". There are two input fields: "Password" and "Confirm password". At the bottom is a blue button with a right-pointing arrow and the text "Login".

The next time you log in, you'll just be asked for your password once.

# Welcome back Robert

Please enter your password to login.

[Forgotten your password? Click here to request your teacher to reset it.](#)

→] Login

If you have forgotten your password, click the link to request your teacher to reset it. They won't get the message until the next time they log in to HegartyMaths themselves, so don't leave your homework until the last minute!
